FCSHK (General), FRCS(Surgery)  
(Edin), FHKAM (Surgery)**

---

### **Curriculum Vitae**

Dr. Meng is Consultant Surgeon, Director of the Minimally Invasive Surgery Training Centre (KWH MISTC) and the Director of Surgical Endoscopy, Department of Surgery, Kwong Wah Hospital & Our Lady of Maryknoll Hospital, Kowloon, Hong Kong.

After graduating from the Chinese University of Hong Kong in 1989, he completed his training in the Prince of Wales Hospital, Hong Kong. His main interest is in Minimal Access Surgery, Colorectal Surgery and Endoscopy.

His specialty training was in the Royal London Hospital, London with Professor Norman Williams, St. Mark's Hospital, London and National Cancer Centre, Tokyo. In 2006, he was awarded the prestigious G. B. Ong Travelling Scholarship. This allowed for more experiences of colorectal surgery in Japan and Germany.

Dr. Meng is also keen in training and education. He is the author of multiple articles in peer-reviewed journals and over a hundred presentations in professional symposium. He is the Honorary Clinical Associate Professor of The Chinese University of Hong Kong. He is also the Honorary Clinical Associate Professor of the University of Hong Kong. He is also a well-known figure in the field of surgery in mainland China. Recently, he was awarded the Visiting Specialist of the First Affiliated Hospital, Sun Yat-sen University, Guangzhou, China. In 2007, he was also invited to be the Visiting Associate Professor of Peking Union Medical College Hospital, Beijing. In 2009, he was appointed as Visiting Professor of Tianjin University Hospital, Tianjin. He is also the examiner for fellowship examination of the Royal College of Surgeons of Edinburgh, United Kingdom.

He is currently involved in the development and training in Minimal Access Surgery and Endoscopy. Kwong Wah Hospital is the first training centre for Transanal Endoscopic Microsurgery (TEM) in China. The very first Stryker Endosuite in Asia was installed in his center. Dr. Meng is also one of the first surgeons to perform Laparoscopic Colorectal Surgery in Hong Kong. He is also the pioneer in establishing a comprehensive Anorectal Physiology Laboratory in the region. He is embarking of research of news techniques of Natural Orifice Transluminal Endoscopic Surgery (NOTES) and Single Port Assess (SPA) Surgery.
